Contents of Volume 17

Number 1

	1	Highlights
	3	Editorial
Viewpoints	5	The often uncounted payoffs from space *J.M. Logsdon*
	7	Some principles of space strategy (or 'Corbett in orbit') *J.G. Fox*
	13	A gateway for human exploration of space? The weak stability boundary *W.W. Mendell*
Papers	19	Privatization and militarization in the space business environment *P.A. Salin*
	27	The US–Europe technology gap in space transportation: the view from the USA *R. Williamson*
	35	Earth observation data archiving in the USA and Europe *R. Harris & N. Olby*
	49	The work of the US National Satellite Land Remote Sensing Data Archive Advisory Committee: 1998–2000 *J.I. Gabrynowicz*
	55	Earth Observation Data Policy and Europe *R. Harris*
Reports	61	GANDER — a constellation of microsats designed to reduce risks at sea *T. Allan*
	65	Near Earth objects: UK Task Force Report
	69	Book review
	71	Publications
	73	Calendar

Number 2

	75	Highlights
Viewpoint	77	How to 'entrench' the regulation of human activities in space *G. Lafferranderie*
Special Highlight Papers: Europe and Space	81	Europe and space: opening a new chapter *P. Busquin*
	83	A joint European strategy for space *G. Naja*

0265-9646/01/$ - see front matter
PII: S0265-9646(01)00051-0

87 Some comments on the ESA/EU space strategy
P. Creola

91 Europe without fractures: a Spanish view of the European Space Strategy
V. Gomez

97 From GMES to NOE: a European network for the management of the environment
J. Achache

103 A Franco–German view of Europe's ambition in space for the 21st century
A. Dupas, S. Janichewski, W. von Kries & K.-U. Schrogl

Other Papers

111 Issues relating to civilian and military dual uses of GNSS
P.B. Larsen

121 The prospects for enhanced international polar-orbiting satellite cooperation
G.W. Withee, D.B. Smith & R.O. Masters

127 Is space global disaster warning and monitoring now nearing reality?
R. Holdaway

Reports

133 Dreams and realities: the challenges facing development of space tourism
ISU Summer Session Students, 2000

141 25th anniversary of the CIDA-E
E.D. Gaggero

143 Book reviews

149 Publications

151 Calendar

Number 3

153 Highlights

Viewpoint

155 The scientific case for human space exploration
I.A. Crawford

Papers

161 International collaboration: the cornerstone of satellite land remote sensing in the 21st century
G.B. Bailey, D.T. Lauer & D.M. Carneggie

171 US–Russian cooperation in human spaceflight: assessing the impacts
J.M. Logsdon & J.R. Millar

179 Improving the effectiveness of international collaboration in space science
J.L. Culhane & J.C. Worms

187 Recent and future activities of the UN Office for Outer Space Affairs
Office for Outer Space Affairs

195 The men who sold the Moon: science fiction or legal nonsense?
V. Pop

205 Human Mission from Planet Earth: finding a rationale for exploration of the Moon and Mars
E. Sadeh

213 NEO scientific and policy developments, 1995–2000
J.L. Remo & H.J. Haubold

Reports

219 Space law conference 2001. Legal challenges and commercial opportunities for Asia
T. Masson-Zwaan

227 British rocketry and space development
D. Lunan

229 Making space for history
M.S. Goodman

231 Book reviews

235 Publications

237 Calendar

Number 4

239 Highlights

Guest Editor's Introductory Comment

241 Nuclear power and propulsion in space
A. Hansson

Viewpoints

243 US national missile defence and international security: blessing or blight?
B. Jasani

249 Promoting UK involvement in the ISS: a space station lifeboat?
D. Lunan

257 Some thoughts on space station science
J.H. McElroy

261 Nuclear space—an indispensable option?
R. Hagen & J. Scheffran

Papers

265 Space for celestial symphonies? Towards the establishment of international radio quiet zones
F.G. von der Dunk

275 High energy-density propulsion—reducing the risk to humans in planetary exploration
S.D. Howe

285 Societal imperatives and the need for space nuclear power and propulsion systems
R.X. Lenard

291 Nuclear propulsion—a historical perspective
S. Gunn

299 Obituary

301 Book reviews

307 Publications

309 Calendar
